

## Request for Qualification Question and Answers

Questions received July 10, 2015.

Response is in [blue](#)

- Is this a renewal of a contract or other form of consultant support services already in place? If so, who is providing the service currently?

[This is a renewal of services. The shared contract with Advance Project Delivery Inc. and CSG Consultants Inc. has expired and no service is currently being provided.](#)

- Can you estimate the split in federal aid services that C/CAG expects will be roadway (FHWA & Caltrans) versus support for transit projects?

[Most of the support will be for roadway services. Very little, if any, will be support for transit.](#)

- We assume in Exhibit 10-H you want the consultant to show how the hourly billing rate is calculated in the top portion of the table. The hourly rate in the bottom half would then be the composite of the direct salary rate, overhead rate, GA if applicable, and then the fee—thus a total billing rate. Correct?

[The ICR would be calculated on the top and that factor would be applied to the billing rate per footnote 2, at the bottom of the form.](#)
