SECTION I

RECITALS:

- 1) The Bay Area Air Quality Management District, hereinafter referred to as "Air District" is authorized under Health and Safety code Section 44223 and 44225 to levy a fee on motor vehicles. Funds generated by the fee are referred to as the Transportation Fund for Clean Air (TFCA) and are used to implement projects to reduce air pollution from motor vehicles.
- 2) Health and Safety Code Section 44241 limits expenditure of collected revenues to specified transportation control measures included in the plan adopted by the Air District pursuant to Health and Safety Code Sections 40233 and 40717 and limits the allocation of the funds to public agencies within the Air District's jurisdiction.
- 3) Health and Safety Code Section 44241(d) stipulates that forty (40) percent of funds generated within a county where the fee is in effect shall be allocated by the Air District to one or more public agencies designated to receive the funds.
- 4) The Air District has been notified, in a communication dated July 29, 1992, that the Program Manager is the duly authorized recipient of forty (40) percent of the funds collected in San Mateo County, and has been so designated by resolutions adopted by the San Mateo County Board of Supervisors and by the City Councils of a majority of the cities representing a majority of the population in the incorporated area of the county. The resolutions specify the terms and conditions for the expenditure of funds by the Program Manager.
- 5) The role of the Program Manager is to administer the Transportation Fund for Clean Air (TFCA) County Program Manager funds. This includes the preparation of an expenditure plan for approval by the C/CAG Board of Directors and the Air District Board of Directors, project sponsor oversight, preparation and submittal of the Funding Status and Final reports and TFCA County Program Manager fund audit support.

Commute.org (the “Project Sponsor”) provides Transportation Demand Management (TDM) programs in San Mateo County as part of a region wide network of TDM services provided in collaboration and partnership with the Regional Rideshare Program, 511 Contra Costa, San Francisco’s Office of the Environment, Solano Napa Commuter Information, and various transportation agencies in the Bay Area to encourage use of transportation alternatives such as carpools, vanpools and transit. Efforts are targeted primarily at commute trips.

Project Sponsor will use TFCA funds to complete specific activities as described below:

- Employer Based Shuttle Program Development and Management: a) continue to provide safe and reliable employer based shuttle services between employment sites and public transit stations (Caltrain, BART, San Francisco Bay Ferry); b) continue to work with existing and new private-sector partners (“consortiums”) to attract and retain additional ridership; c) maximize satisfaction of shuttle consortiums and their employees and residents; d) provide employers, property managers, and multi-tenant residential communities shuttle services that are financially sustainable in a cost effective manner that do not duplicate existing fixed route services.
- Employer Outreach: Project Sponsor conducts marketing and outreach to employer work sites in San Mateo County providing commuter benefits consulting services to encourage employers to provide alternative commute benefits or programs to their employees. San Mateo County employers will also be encouraged to utilize the agency’s transportation demand management software platform (“STAR”) to provide their employees with ridematching, trip logging, trip planning, and gamification tools that will encourage and measure mode shift from drive-alone to alternative commute modes.

- Commuter Outreach: Project Sponsor also reaches commuters directly as opposed to through their employers. Direct commuter outreach includes residential and community marketing, contests, and communications.
- Incentive Programs:
 - Project Sponsor provides a “New Carpooler Commuter Incentive.” Drive-alone commuters, who live in, work in, go to school in, and/or commute through San Mateo County and who make at least 15 carpooling trips over a two-month period are eligible to receive an incentive of up to \$50 per participant.
 - Project Sponsor provides a “New Vanpooler Rider Incentive.” Drive-alone commuters, who live in, work in and/or commute through San Mateo County and who switch to vanpooling to work are eligible to receive a financial incentive of up to \$100 per month for three months after the first three months of participating in a vanpool as a passenger.
 - Project Sponsor provides a “Vanpool Driver Incentive.” Drivers of vanpools originating in or destined for San Mateo County who keep their vanpools operating for six months as the driver are eligible to receive a financial incentive of up to \$500 per driver.
 - Project Sponsor provides a “Try Transit Program.” Commuters, who live in, work in and/or commute through San Mateo County can try transit for free by applying for free transit tickets provided by transit agencies in San Mateo County and neighboring partner agencies in surrounding counties.
 - Project Sponsor conducts an annual “Commuter Challenge” in April and May, Commuters, who live in, work in and/or commute through San Mateo County are encouraged to use commute alternatives including public transit, carpools, vanpools, bicycling or walking during the two-month campaign period. Participants who meet the campaign requirements and register in the Commuter Connections database are eligible for weekly prize drawings and grand prizes (selected randomly from qualified entries).
 - Project Sponsor uses the STAR platform to reward non-drive alone commuters with a variety of contests, prize drawings, and challenges throughout the year. The commuters become eligible by logging their commute trips, responding to surveys, engaging in social media activities promoting alternative modes, and earning badges/rewards in the platform.
- Project Sponsor provides an “Emergency Ride Home Program.” Any eligible commuter to San Mateo County who carpools, vanpools, or takes transit to work may receive a taxi voucher or reimbursement of up to 75% of the cost of a taxi, TNC, or 24-hour rental car in case of emergency during the work day. Participating employers contribute 25% plus any amount over the program threshold of the cost of the emergency ride.
- Project Sponsor also provides a “Guaranteed Ride Home Program” for commuters that use the STAR platform. Anyone who works in San Mateo County will be eligible to register for the program. If, on a day when the employee uses a non-drive alone commute alternative, they have an emergency, then they will be eligible for up to 100% reimbursement of their transportation expenses (subject to program rules and

regulations). This program is currently in pilot phase and will be adjusted as necessary to make it as effective as possible while being mindful of the expenditures.

- **Bike Parking Incentives.** In an effort to encourage San Mateo County employers and municipalities to support and encourage bicycling to the work place the Project Sponsor offers bicycle parking incentives. The Project Sponsor provides a 50% match for the cost of purchasing and installing bike parking facilities up to \$500 per unit. The applicant purchases and installs the bicycle parking and then submits an application for reimbursement. Award of the incentives is subject to program rules and regulations which includes a commitment from the applicant to maintain the units.
- **Project Sponsor provides a “Commuter Bike Safety Training Program.”** Employers in San Mateo County can coordinate with Project Sponsor to provide on-site bicycle safety training seminars for employees. A certified bicycle trainer is provided at no cost to the employer to instruct employees on a wide range of topics that encourage safe cycling. In addition to the seminars, the Project Sponsor produces bicycle safety handbooks (available in both English and Spanish) and co-produces a bicycle map of San Mateo County.
- **Website:** Project Sponsor has a website, www.commute.org that provides information about all transportation alternatives in San Mateo County, provides shuttle riders with schedule and route information, provides real-time tracking of shuttles, provides information updates on San Mateo County commute conditions, provides employers with access to the commute alternative planning tools and services provided by the Project Sponsor and its partner agencies, and provides links to the websites of our partner agencies and other Bay Area transportation providers.
- **Marketing:** Project Sponsor uses a variety of marketing techniques to promote, encourage, and sustain non-drive alone commute alternatives. Marketing includes traditional print and direct mail pieces as well as digital marketing on streaming radio, search engines, web sites, etc. Social media is an increasingly important element of the Project Sponsor’s marketing efforts with campaigns on Facebook, Twitter, Instagram, YouTube, LinkedIn and other social media outlets.
- **Phone Support:** Project Sponsor provides general information about transportation alternatives to driving alone, including HOV, Public Transit, Shuttles, and Park-and-Ride facility information to callers who call (650) 588-8170 or (650) 588-1600.

ATTACHMENT B

GUIDELINES FOR ELIGIBLE TFCA REIMBURSABLE COSTS

The Transportation Fund for Clean Air (TFCA) enabling legislation allows the vehicle registration fees collected for the program to be used for project implementation costs, as well as administrative project costs. This attachment provides guidance on differentiating and reporting these costs. The Air District will use the definitions and interpretations discussed below in the financial accounting of the TFCA program. The Air District conducts audits on TFCA-funded projects to ensure that the funds have been spent in accordance with the program guidelines and policies.

Project Implementation Costs

Project implementation costs are charges associated with implementing a TFCA-funded project including:

- Documented hourly labor charges (salaries, wages, and benefits) directly and solely related to implementation of the TFCA project,
- Capital costs,
- Capital equipment installation costs,
- Equipment maintenance costs,
- Shuttle driver labor costs,
- Labor costs related to capital purchases,
- Operator or personnel training directly related to project implementation,
- Contractor labor charges related to the TFCA project, and
- Travel and training costs only if these costs are directly related to the implementation of the TFCA-funded project (e.g., the cost of training mechanics to service TFCA-funded natural gas clean air vehicles).

The Project Sponsor may seek reimbursement for these costs by providing proper documentation with project invoices. Such documentation must show how the project implementation costs were calculated, for example, by listing the date when the hours were worked, employee job title, employee hourly pay rates, tasks, and total charges. Documentation of hourly charges may be provided with time sheets or any other generally accepted accounting method to allocate and document staff time.
