Metropolitan Transportation Commission

What is the TIP?

- 4 Year Program of Projects
- Clearinghouse of Project Information and Programming Data

Key Milestones that Require TIP Programming

- Scheduling a Field Review
- Final Caltrans Review of Environmental Documents
- Obligation of Funding

Planning Context of the TIP

- **TIP projects must be consistent with the Regional Transportation Plan (RTP)**
 - Description
 - Cost
 - Completion Year

- **TIP projects must be consistent with the Regional Transportation Air Quality Conformity Analysis for the RTP and the TIP**
 - Description
 - Analysis Year

Grouped Listings

- Multiple exempt projects included in one TIP listing

Grouped Listings – Caltrans Managed Programs

- HBP, HSIP, SHOPP
- In grouped listing for programming purposes
- Individual listings for monitoring and project-level air quality purposes

TIP Revisions

➤ Administrative Modifications

- Relatively small funding changes and specific non-funding changes allowed per http://www.dot.ca.gov/hq/transprog/federal/fedfiles/res_publications/rev_amend_proc.pdf
- Final approval delegated to MTC
- Shorter approval timeline

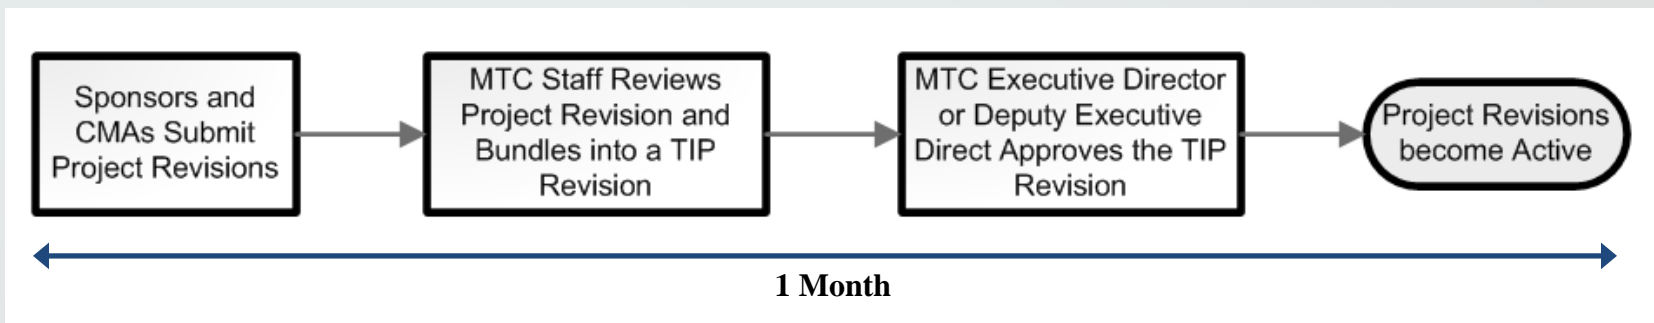

TIP Revisions

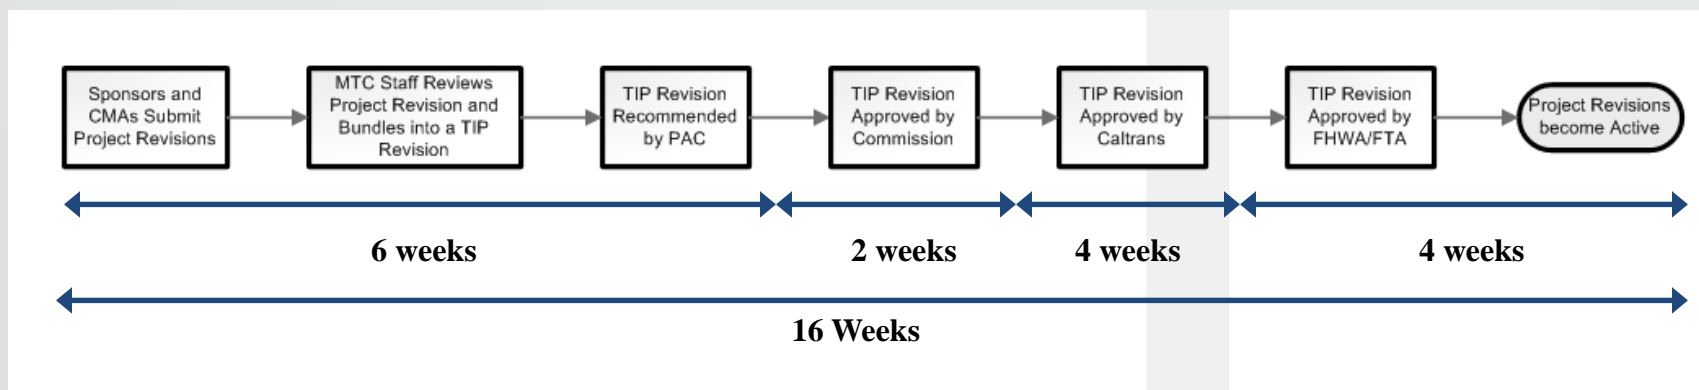

- Amendments
- Changes other than those allowed in administrative modifications per http://www.dot.ca.gov/hq/transprog/federal/fedfiles/res_publications/rev_amend_proc.pdf
- Final approval by FHWA and FTA
- Longer approval timeline

TIP Revisions

Using FMS

Adam Crenshaw

Metropolitan Transportation Commission

SPOC Workshop

San Carlos, CA

May 30, 2017

Metropolitan Transportation Commission

Using FMS - Overview

- **FMS User Accounts**
- **TIP Revision Process**
- **FMS Universal Application (UA)**
- **Project Searches**
- **Reports**

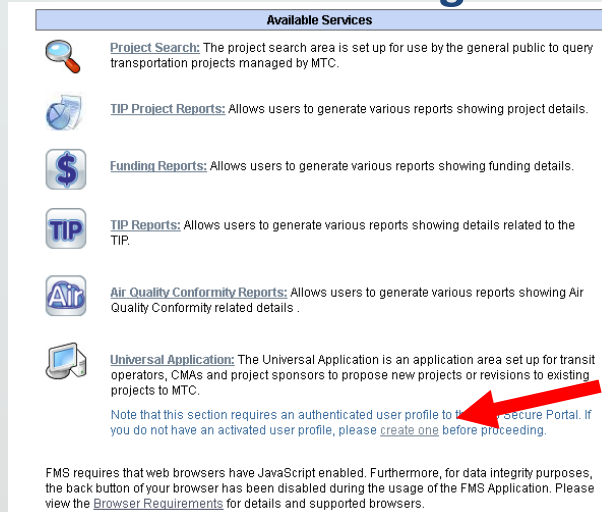

FMS – User Accounts

➤ Creating an Account

- Links to Account Creation are on the FMS Home page (<http://fms.mtc.ca.gov/fms/home.ds>) and the Log In page

FMS Home Page

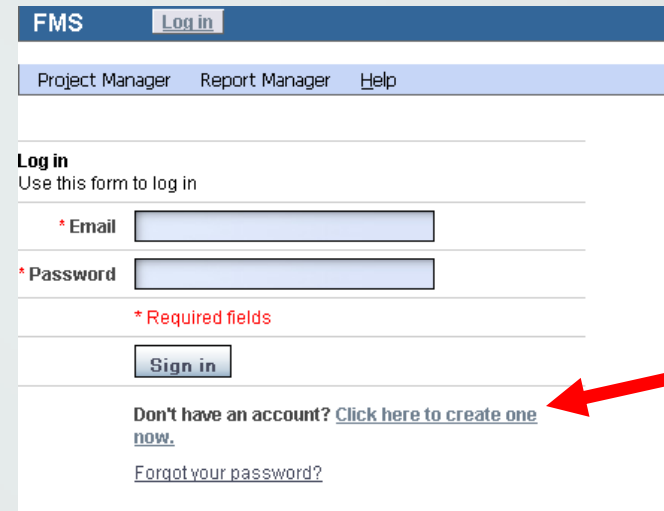

Available Services

- Project Search:** The project search area is set up for use by the general public to query transportation projects managed by MTC.
- TIP Project Reports:** Allows users to generate various reports showing project details.
- Funding Reports:** Allows users to generate various reports showing funding details.
- TIP Reports:** Allows users to generate various reports showing details related to the TIP.
- Air Quality Conformity Reports:** Allows users to generate various reports showing Air Quality Conformity related details.
- Universal Application:** The Universal Application is an application area set up for transit operators, CMAs and project sponsors to propose new projects or revisions to existing projects to MTC.
Note that this section requires an authenticated user profile to view the Secure Portal. If you do not have an activated user profile, please [create one](#) before proceeding.

FMS requires that web browsers have JavaScript enabled. Furthermore, for data integrity purposes, the back button of your browser has been disabled during the usage of the FMS Application. Please view the [Browser Requirements](#) for details and supported browsers.

FMS Log In Page

FMS [Log in](#)

Log in
Use this form to log in

* Email

* Password

* Required fields

[Sign in](#)

Don't have an account? [Click here to create one now.](#)

[Forgot your password?](#)

- MTC Staff will Review the account, assign the appropriate privileges and restrictions, and activate the account

FMS – User Accounts

➤ Privileges and Restrictions

- Public Users
 - Can search for projects and view project information
- Local Road and Highway Sponsors
 - Access and edit their own projects through UA
- CMAs
 - Access and edit projects for their own county through UA and submit revisions
- Transit Operators
 - Access and edit their own projects through UA and submit revisions

TIP Revision Process – Lifecycle of a Project

- **New Project**
- **Revised Project**
- **Archived or Deleted Project**

TIP Revision Process – Lifecycle of a Project Revision

➤ New Project Revisions

– New Projects

– Universal Application >> Create New Project

– Revisions to Existing Projects

– Universal Application >> Create Revision

– Revisions begin with an “In Process” status

– They can be accessed through Universal Application >> Resume In Process Application

TIP Revision Process – Lifecycle of a Project Revision

➤ Submitting a Revision

- MTC Staff reviews Project Revisions
 - Decline – Project Revision is returned to the sponsor for edits
 - Accept – Project Revision moves on to the TIP Revision stage
- Once accepted Project Revisions are bundled into a TIP Revision
 - The revision will be included in an Administrative Modification or a Formal Amendment
 - Given a TIP Revision Number (e.g. 2017-03)
 - Reviewed by MTC management and executive staff

TIP Revision Process – Lifecycle of a Project Revision

➤ Accessibility of Project Revisions by Status

- IN PROCESS
 - Viewable in Project Search
 - Accessible and editable in UA for users with the appropriate privileges
- SUBMITTED and ACCEPTED
 - Viewable in Project Search but not UA
- PROPOSED and ACTIVE
 - Viewable but not editable through Project Search and UA
 - Appropriate users may create new revisions using PROPOSED or ACTIVE versions as a base

FMS – Universal Application

FMS – Universal Application

- **Project Description Tab – Issues to be aware of**
 - **Sub-Mode**
 - Enter sub-modes in descending order of priority
 - **Purpose**
 - Expansion – Project adds capacity to the existing system
 - Maintenance, Rehab, Replacement – Project preserves existing facilities
 - Operations – Project funds the administration and operations of agencies
 - System Management/Travel Demand Management – Project promotes more efficient use of existing facilities
 - Other – Option of last resort

FMS – Universal Application

- **Project Description Tab – Issues to be aware of**
 - **Project Description**
 - Include the name of the jurisdiction
 - Include the project limits
 - Include the description of the work being done
 - Example – City: Street A from Road 1 to Road 2: Rehabilitate roadway, replace curbs and gutters, and patch sidewalks

► Screening Criteria Tab

Screening Criteria - Step 6 of 9 Glossary

- * Is your project an Intelligent Transportation System (ITS) project or does it include ITS components? If you answer Yes, you must also answer all ITS related questions below. [More Info](#)
- Is your ITS project classified as 'low risk' or 'high risk' under FHWA/Caltrans ITS guidance? Please answer even if your project is FTA funded. [More Info](#)
- Is your project included in the Bay Area Regional ITS Architecture? [More Info](#)
- Does your ITS Project include a construction phase that is more than 10% of the cost of the project? [More Info](#)
- * Does your project comply with MTC Resolution 3866 (Transit Coordination Implementation Plan)? [More Info](#)
If you answered "No" or "N/A" to the above question, please explain your response.
- * Have the needs of non-motorized travelers been considered in the design of the project and is the project consistent with Caltrans Deputy Directive 64? [More Info](#)
- * Is non-motorized travel impeded by this project?
If yes, has a cross-facility, non-motorized access been included in the project?
- * Has a parallel non-motorized facility been designed to accommodate non-motorized travelers?
- * Have you reviewed local county, and regional bike plans for roadway design consistency?
- * Is project consistent with MTC's RTP, other regional, local plans and programs (e.g. most recently adopted Short Range Transit Plan)?
SRTP Reference: FY Adopted: SRTP Page:
List other applicable plans:
- * Is project supported by an adequate financial plan with all sources of funding identified and has a logical cash flow?
- * Is project well defined and well justified. It has clear project limits, intended for scope of work, and project concept?
- * Does project meet or support the requirements of the American with Disabilities Act (ADA)?
- * Is this project a Single Occupancy Vehicle (SOV) capacity increasing project?

* These fields must be inputted before the application can be submitted.

- Do not create a new Revision only to upload a document – Contact MTC if only an upload is needed

FMS – Universal Application

➤ Air Quality Tab

Air Quality [Glossary](#) [Application Assistant](#) [Contact Us](#)

Regional Conformity

Air Quality Code	Air Quality Description
1.07	EXEMPT (40 CFR 93.126) - Traffic control devices and operating assistance other than signalization projects

Air Basin	Air District
San Francisco Bay Area	Bay Area AQMD

TCM	TCM Number	VOC	NOX	CO	PM10	PM2.5	CO2
		0.0	0.0	0.0	0.0	0.0	0.0

Project Conformity

Overview: The San Francisco Bay Area has been designated as non-attainment for the 24 hour PM2.5 standard. Beginning December 14, 2010, certain projects are required to complete a PM2.5 hot-spot analysis as part of the project-level conformity determination process. Project sponsors must engage in interagency consultation on the PM2.5 hot-spot analysis through MTC's Air Quality Conformity Task Force. The Conformity Task Force will (1) determine if a project meets the definition of a project of air quality concern and if the project requires undergoing a project-level PM2.5 hot-spot analysis, and (2) review the methods, assumptions and analysis of the PM2.5 hot-spot analysis. The EPA and either FHWA or FTA must concur with the recommendations from the Conformity Task Force. Upon completion of the interagency consultation, project sponsors must seek approval from FHWA or FTA on the PM2.5 hot-spot analysis.

Milestone	Status	Details
Step 1 - Project Identified Exempt From PM2.5 Project Level Conformity	TBD	Pending sponsor's completion of questions on Step 1 - Project Identification.
Step 2 - Project Requires Interagency Consultation Task Force Determination of POAOC	TBD	
Step 3 - Project Requires PM 2.5 Hot Spot Analysis Consultation	TBD	

- **Regional Conformity** – Only editable by MTC staff
- **Project Conformity** – Needs to be completed by the Project Sponsor

FMS – Universal Application

➤ Air Quality Tab – Edit Project Conformity

Save Cancel

Project Conformity Analysis Summary		
Milestone	Status	Details
Step 1 - Project Identified Exempt From PM2.5 Project Level Conformity	TBD	Pending sponsor's completion of questions on Step 1 - Project Identification.
Step 2 - Project Requires Interagency Consultation	TBD	
Task Force Determination of POAQC	TBD	
Step 3 - Project Requires PM 2.5 Hot Spot Analysis Consultation	TBD	

Step 1: Project Identification

Note: Only one type of exemption can be selected for a project. If more than one exemption is selected for questions 3-5, only the latest selection will be committed.
Note: Projects must be consistent with regional conformity exemption. If there is an inconsistency, please contact MTC immediately.

Questions	Answers
Note: If the answer to either or both of the first two questions is "NO", you may not be subject to conformity.	
1. Does this project have any federal funding?	Select One ▾
2. Does this project (or any phases of the project) require any federal action (such as federal authorization or approval for funding or environmental review) after December 14, 2010?	Select One ▾
3. Is the project exempt from both regional and project-level air quality conformity under 40 CFR 93.128? Click here to determine.	
Project Type Selected: None selected.	
4. Is the project exempt from regional air quality conformity under 40 CFR 93.127? Click here to determine. Note that a project exempt from regional air quality conformity may still be required to undergo a PM 2.5 hot-spot analysis and project-level conformity determination.	
Project Type Selected: None selected.	
5. Is the project exempt from regional air quality conformity under 40 CFR 93.128? Click here to determine.	
Project Type Selected: None selected.	
6. Does this project meet the definition of a "project of air quality concern" under 40 CFR 93.123(b)(1)? Click here to determine. Note that the interagency consultation via the Air Quality Conformity task will be needed to make the final determination.	
Project Type Selected: None selected.	

I certify that the answers to the questions above are complete and no further changes are required.

- Answer Questions 1 – 6
- Click the checkbox and save the entry
- FMS or an MTC Air Quality Coordinator will notify users regarding any further actions that are needed

Active	2,221,000	425,757	124,053	2,770,810
Proposed	2,221,000	425,757	3,230,870	5,877,627

- Side-by-side comparison of the current revision and the previous version – changes are shown in red
- Fund lines from current revision are shown as Proposed and prior versions are shown as Active
- Revisions may be saved or submitted based on privileges

FMS – Project Searches

➤ Uses for Project Searches

- View project information
- Run Project Manager Reports
 - Project Listing Report – project information in the TIP as of the version selected
 - Project Authorization Report – more information than the Project Listing Report. This report should be submitted to Caltrans when requesting authorization to begin a phase
 - Project Detail Report – greatest amount of detail on a project
- Edit Project Air Quality Conformity information without creating a revision

FMS – Contact Information
