- b. *Intellectual Property.* Consultant hereby certifies that it owns, controls, and/or licenses and retains all right, title, and/or interest in and to any intellectual property it uses in relation to this Agreement, including the design, look, feel, features, source code, content, and/or other technology relating to any part of the services it provides under this Agreement and including all related patents, inventions, trademarks, and copyrights, all applications therefor, and all trade names, service marks, know how, and trade secrets (collectively referred to as "IP Rights") except as otherwise noted by this Agreement.

SCOPE OF WORK, BUDGET, AND SCHEDULE

- + Project team management and invoices (BTD)

TASK 3. NEEDED FROM CLIENT

- + Provide access to LW for site surveys
- + Provide team with all relevant site-related (including latest CAD and pdfs of site) and school program information

TASK 2. STAKEHOLDER ENGAGEMENT - FALL 2021

TASK 2. GOALS. Work with Stakeholder Advisory Committee and utilize goals and guiding principles to elicit constructive input from each school community while expanding understanding of environmental literacy, stormwater management, and other benefits of climate resilient school grounds.

TASK 2. SCOPE

1. Develop Engagement Strategy (BTD)

Our team will develop an engagement strategy that uses technology to reach as many people as possible while customizing meetings for each user group. The engagement will include an optional project website to provide content, live workshops, show community input, and provide other information related to the project. The engagement strategy will include some meetings for the overall project, for example related to curriculum integration, as well as instructions for teachers about how to hold an optional student workshop. Our engagement strategy will also include site specific meetings for brainstorming. For budget purposes specific meetings that will benefit most from in person workshops will be held as a hybrid of virtual and in person* meetings to maximize attendance and /or address COVID. (*dependent on state of COVID and County Health requirements). All other meetings will be held on Zoom. Below we have proposed a series of meetings and formats. We may refine these during this subtask based on Task 1.

2. Project Team Strategy input (BTD/LW)

- + Review and input will be provided throughout Task 1. A final review of consolidate comments on one document will be provided by the Project Team.
- + Review engagement strategy - meeting goals, schedule/groups, and tools
- + Review site analysis and site opportunities

3. Curriculum Integration Meeting, via Zoom (1) (GSA - Rachel Pringle)
 – Participants: All site principals and teachers/staff from participating schools, and district administrators from SCSD's Educational Services department. The goal and content of this meeting will be developed as part of the engagement strategy after we have clear direction from Task 1. The meeting could cover environmental literacy training and how to get out of the classroom or it could be a workshop for brainstorming specific ideas for their own campuses.

OPTIONAL: Professional Development for Teachers

See GSA's separate proposal for optional PD opportunities.

4. Brainstorming, Listening, and Learning meetings: 2 meetings with 1 meeting at each site - in-person with Zoom (BTD/GSA)

- + Attendees: Stakeholder Advisory Committee, principal, teachers, staff, and school community
- + Review schoolyards with focus on climate resiliency and curriculum
- + End with brainstorming exercise

5. Student workshops (BTD): This proposal includes an option for student participation in the planning process. This is described in the paragraph below. Based on our experience, students are typically more engaged and learn more when their input can be tactile and immediate. Thus, we recommend including student engagement immediately before or after construction. We could help facilitate a design-build workshop with a hands-on project for students and/or could train SCSD teachers

to use GSA's urban heat island curricula, so their students can conduct an analysis of temperatures on their grounds before and after these schoolyard renovations take place.

BTD to provide one instructional meeting (Zoom) for teachers to learn most effective way to run workshop in their classroom including exercises and instructions. BTD to provide recorded Zoom presentation for the students. Workshop will be formatted for students to view presentation and develop drawings and writings for proposed design ideas for their schoolyards. Following workshop teachers/school will provide digital copies of children's work. Purpose of this workshop is to engage students and teach student bodies about stormwater and the benefits of possible improvements related to play and learning affordances in their schoolyard and to garner their ideas for the schoolgrounds.

6. Online collaboration platform: Team to provide an online collaboration platform for Project Team and Stakeholder Advisory Committee to access information and provide input. Team will provide material to Client for project website in form of deliverables listed below.

TASK 2. MEETINGS
