WITNESSETH

**WHEREAS**, California Government Code Section 65089.20 authorized C/CAG to impose an additional vehicle registration fee of up to ten dollars (\$10) (the “\$10 VRF”) on each motor vehicle registered within San Mateo County (“County”), to be used for transportation-related congestion and pollution mitigation programs and projects; and

**WHEREAS**, on November 2, 2010, the County voters approved Measure M, which imposes an additional \$10 VRF on each motor vehicle registered within the County, effective May 2011 and continuing for a period of 25 years; and

### SCOPE OF WORK

#### Countywide Transit / Senior Mobility Programs

The District is proposing to use Measure M funding to cover costs related to paratransit and senior mobility programs provided by the District.

For FY 2022, the total paratransit budget is \$17.9 M. Passenger fares cover approximately 3 percent of the costs while sales tax proceeds cover 38 percent, or \$6.9 M. Other sources of revenue are Measure A funds from the San Mateo County Transportation Authority, Transportation Development Act funds, and interest income. Proposed Measure M funds will help offset the use of sales tax and, possibly, increases in future costs of paratransit service due to increased demand.

#### I. REDI-WHEELS AND REDICOAST

##### Background

Paratransit is public transportation for people with disabilities who cannot independently use regular District bus service some of the time or all of the time. The District provides paratransit using Redi-Wheels on the bayside of the County and RediCoast on the Coastside. Trips must be prearranged.

All of the District's buses are accessible, and many persons with disabilities are able to use the regular fixed-route bus service. The entire fleet of fixed-route buses is equipped with wheelchair lifts or ramps and a kneeling feature to make boarding easier.

The District offers paratransit customers a financial incentive to use fixed-route services. Redi-Wheels and RediCoast Americans with Disabilities Act (ADA) certified customers who possess a valid Redi-Wheels or RediCoast ADA identification card are allowed to ride all regular fixed-route District trips without paying a fare. Personal care attendants accompanying Redi-Wheels or RediCoast ADA customers are also allowed to ride all regular fixed-route District trips without paying a fare.

The ADA is a federal law that guarantees persons with disabilities full and equal access to the same services and accommodations that are available to people without disabilities. The ADA requires public transit operators to provide paratransit service to persons with disabilities that is comparable to the level of fixed-route service provided. Persons with disabilities who cannot independently ride fixed-route transit may be eligible for paratransit service.

##### Statistics

In FY 2019, Redi-Wheels and RediCoast vehicles and contracted taxis provided over 344,000 trips and approximately 177,000 hours of service.

Redi-Wheels alone carried almost 309,000 customer trips in FY 2019. Of these, 173,000 trips were made by seniors 65 years of age or older. A number of these trips were made by lift-equipped vehicles. However, approximately 202,000 trips were made by ambulatory riders who

can ride in a regular sedan and do not require special equipment. (Note: Trips made by ambulatory seniors were approximately 136,000.)

Ridership declined during FY 2020 and FY 2021 due to the COVID pandemic and stay at home orders. The District staff expects that ridership in FY 2022 will increase compared to FY 2021.

### Measures of Effectiveness

The District shall provide C/CAG with performance measure criteria to assess the effectiveness of the Redi-Wheels program including but not limited to: a) hours of service per month, b) number of trips per month, and number of individuals who ride in a given month, c) cost per passenger. The Redi-Wheels program includes sub-contracted taxi services.

In addition, the District will also provide C/CAG with metrics illustrating Redi-Wheels contractors' performance relative to established goals, which include:

- a) Miles between preventable accidents: 70,000 miles between preventable accidents,
- b) Service-related complaints per thousand customers: 2.5 complaints per thousand customers or less
- c) Incoming call wait time: 1.5 minutes or less, and
- d) On time performance: 90%.

## II. SENIOR MOBILITY PROGRAM

The District's annual Senior Mobility Program is founded on the *San Mateo County Senior Mobility Action Plan (2006)*. *The Mobility Plan for Older Adults and People with Disabilities (2018)* updated the 2006 document. Strategies and recommended programs include:

1. Countywide Mobility Management
  - Mobility Management Center (Phone and website)
  - Improve Coordination and Information Sharing
2. Leverage Private On-Demand Transportation Services
  - Taxi Fare Subsidy Pilot Program and Strategies for Increasing Wheelchair-Accessible Taxis
  - Subsidized Ride Sourcing Programs with Telephone Booking
3. Community Transportation Services
  - Flexible Route County Transit Services
  - Expand County-Based Transportation Services
4. Encourage Use of Transit
  - Improve and Increase Awareness of Mobility Ambassadors and Veteran Mobility Corps
  - Mobile Accessible Travel Training Bus
5. Promote Safe Driving

- Continue and Improve Coordination with Local Driver Safety Instruction and Safe Driving Information

6. Active Transportation and Access to Bus Stops

- Older Adult Walking Groups
- Safe Routes to Transit for Older Adults and People with Disabilities

The Senior Mobility Program is supported by the following County and regional planning documents:

- The Metropolitan Transportation Commission *Coordinated Public Transit/Human Services Transportation Plan* recommends county-wide mobility management, including public/private partnerships, to address uncoordinated service, and uncoordinated information. The Plan also recommends the establishment of enhanced local information and referral systems to address the lack of comprehensive mobility information.
- The *San Mateo County Area Agency on Aging 4-Year Plan* goals and objectives include:
  - Support options for increased mobility.
  - Explore partnerships and collaborations to improve transportation options
  - Support opportunities to remain socially connected to friends, family and other activities.

Measures of Effectiveness

The District will provide C/CAG with performance measure criteria to assess the effectiveness of the program including but not limited to the following:

Producing *Senior Mobility Guide*

Number of organizations outreached

Number of individuals participating in the outreach

III. PERFORMANCE MEASURES

The District will also provide the following performance measures from Table 3-6 of the Measure M Implementation Plan (FY22-26):

## EXHIBIT B

### Additional Senior Mobility Programs

In the event the 18% of net Measure M revenues exceed \$1,200,000, C/CAG and the District will collaborate on the use of additional funding. Funds will be used for senior mobility programs, including, but not limited to the following:

- **Subsidized ride sourcing pilot program with smartphone application booking**

This program would provide subsidized same-day rides to older adults and people with disabilities using Transportation Network Companies, such as Uber or Lyft.

- **Improve and increase awareness of mobility ambassador and veteran's mobility corps program**

This program would seek to increase awareness of existing mobility ambassador and veteran's mobility corps programs through improved marketing. Potential methods for marketing and raising awareness could include:

- Creating a short professional video to promote the program
- Showing the video on local television
- Advertising on the radio and in local newspapers

- **Mobile accessible travel training bus**

This program would transform a retired or soon to be retired low-floor bus to a mobile classroom for training older adults on how to utilize transit services.

- **Flexible-route Community Transit Service**

This program would explore alternative service delivery models to traditional fixed route transit services, and new technologies to provide community transit services for trips within communities and connections to regional transit. Potential alternative service delivery models could include public-private partnerships with microtransit services.

- **Other innovative services/programs**

The District will consult and collaborate with C/CAG on the use of funding for innovative programs.

#### Measures of Effectiveness

The District will provide C/CAG with performance measure criteria to assess the effectiveness of the program including but not limited to the following: number of organizations outreached, number of individuals participated, number of community meetings held, type of collateral material distributed or made available to seniors, number of miles traveled using Transportation Network Companies, number of trainings conducted and feasibility results of alternative service delivery models.
