Mr. Charpentier,

I write to express my unreserved support for the application of Cecilia Taylor, my council colleague, to the OneShoreline board of directors. During the course of her career on council, and before, Councilmember Taylor has been a passionate advocate for those issues such as sea level rise and flooding that OneShoreline is endeavoring to address. She has been an especially strong voice for the unique and disproportion threat that these developments pose to at-risk communities.

It's also worth noting that Councilmember Taylor represents Menlo Park's District 1, which is the community in the city most at risk of rising levels of San Francisco Bay, and that she serves as the alternate on the San Francisquito Creek Joint Powers Authority, another inter-governmental body that is playing a key role in these issues.

Please share this email of support, to the extent such an action is in line with your standard process and procedures, with all who will be voting as part of this selection process.

Thank you,  
Drew Combs
