CCAG Board of Directors

RE: One Shoreline Member At Large Position

Esteemed Colleagues,

I wish to support the application of our newest member of the Brisbane City Council (and our next Mayor) for the At Large position on the One Shoreline Board. I have the utmost respect for the other applicants and believe everyone to be an excellent candidate.

Many of you may not have had an opportunity to get to know Coleen yet, but I have known Coleen for 15 years professionally and personally and she is the right person for the Board at this moment. Coleen has a deep understanding of the complex issues that the Board must address as a Council Member, a former Planning Commissioner, as a member of the PCE and has worked within the county as a Grand Juror.

Throughout Coleen's public service, she has proven herself to be an efficient, detail oriented Team Player who has always proven her research and community abilities at all times. History shows us that the North County has often been underrepresented on the Board. At this time, however, it is critically important that the North County be represented, and particularly Brisbane, given the pending development of the Brisbane Baylands and all that that will mean for the region. Sea level rise, liquefaction, and other risks to Highway 101 and the North County are just a couple of the many complex issues the City of Brisbane is focused on as we prepare to consider how the Baylands can be developed safely and wisely. Coleen is very much a part of the City's work and being on the Board will allow her to bring what we are learning to the Board for its benefit and the benefit of the region.

I hope you will join me in supporting Coleen for the Board. She truly is the right person at the right time to best support the work of the Board while also being a respected voice for the North County.

Regards

Karen Cunningham  
Mayor Brisbane CA
