

To my colleagues on the C/CAG Board,

As you endeavor to select a new Councilmember to serve on the One Shoreline Board, I offer the following. As far as I know, Councilmember Sam Hindi is the only Councilmember in our County who has seen a sea level rise abatement project from beginning to end, and I know it's the largest project of its type in San Mateo County. He knows about the financing, the design pitfalls and construction nuances that will benefit future projects throughout our County. Additionally, Sam will represent the only city in the county that fully financed its own project. This is a unique perspective that will help balance the board and enhance the discussions moving forward.

I urge your vote for Councilmember Sam Hindi for the One Shoreline Board.

Jon Froomin, Mayor  
City of Foster City
