electrical panel
upgrade

Best place to find all incentives: incentives.switchison.org

Expanded support for home electrification

Income-qualified households:

- Free full electrification upgrades

Non-income qualified households:

- Easy full-service electrification
- Rebates automatically applied
- Transparent fixed pricing

Full Launch Spring 2025

Additional electrification resources

- Energy advisor for technical questions and electrification planning support
- Emergency water heater replacements

Launch Q1 2025

Electric transportation programs

- Customers receive \$2,000 off a used EV or plug-in hybrid
- EV Concierge Program to help stack up to \$16K in incentives
- 1000 ebike rebates in 2024, will be relaunched in 2025

Support for member jurisdictions

- \$25 million in grants for building electrification
- GovPV: Low-cost solar power purchase agreements
- GovFleets: Technical support for electrifying government fleets

Thank you for your support
