

SAN BRUNO / SOUTH SAN FRANCISCO COMMUNITY-BASED TRANSPORTATION PLAN

FACT SHEET

The City/County Association of Governments (C/CAG) of San Mateo County is developing a Community-Based Transportation Plan, and we can't do it without you.

We need a broad range of community-members to provide their ideas and experiences. You can help us decide which transportation improvements are most important—paratransit, sidewalks, roadways,

transit, policies, programs, or something else.

We're addressing the challenges people face specifically in areas that need more investment.

The plan we build together will lay out costs, funding needs, and strategies to make it happen. With your input, the C/CAG can improve mobility for everyone who travels in and around these areas.

Project Objectives

The C/CAG is looking for ways to improve transportation. We are working with community members of San Bruno and South San Francisco and local organizations to learn what will help the most. The plan will include:

SAFETY

Improving safety, increasing comfort, and reducing (or eliminating) crashes

TRANSIT

Making transit easier to use and more comfortable

BIKE, WALK AND ROLL

Building connections for biking and walking

AIR QUALITY

Reducing traffic congestion and improve air quality

ECONOMIC OPPORTUNITY

Supporting access to jobs and economic vitality

INFORMATION

Sharing information about transit and transportation

What is a CBTP?

The San Bruno/South San Francisco CBTP focuses on Equity Priority Communities (EPCs) in the county (see map). Funding and transportation improvements can make a huge difference for residents.

A completed CBTP will include:

- An analysis of the demographics and existing transportation resources for EPC areas.
- A list of transportation concerns, ranked in the community's order of importance
- Key strategies to resolve current issues and improve service
- Potential funding sources
- Community partners to help implement improvements
- Documentation of our community engagement activities

Take the Survey

What are the main challenges of mobility?
What are the key locations and community resources that people need to access?

SAN BRUNO / SOUTH SAN FRANCISCO COMMUNITY-BASED TRANSPORTATION PLAN

Equity Priority Communities (EPCs)

These areas have a significant concentration of underserved populations, like households with low incomes, people of color, and a combination of additional factors. The C/CAG invests in EPCs to reverse long-standing disparities. Our intent is to provide EPCs access to safe and reliable transportation, housing and other community services.

Timeline

- SUMMER 2024**
Launch of Steering Committee
- FALL-WINTER 2024-25**
Demographic Research,
Stakeholder Interviews
- WINTER-SPRING 2025**
Outreach (Interviews, Pop-Up
Events, Community Briefings)
- SPRING 2025**
Draft Plan Review
- JUNE-JULY 2025**
Confirming Priorities
- FALL-WINTER 2025**
Final Report
