

# FINAL 2025 SAN MATEO COUNTY CMP UPDATE & MONITORING REPORT

C/CAG BOARD MEETING  
DECEMBER 11, 2025

# 2025 CMP Update Schedule

Date	Activity
October 16, 2025	Draft 2025 CMP Presented to TAC
October 27, 2025	Draft CMP Presented to CMEQ
November 13, 2025	Draft 2025 CMP presented to Board (Open Public Comment Period)
November 20, 2025	Final CMP Presented to TAC
December 1, 2025 (Special Meeting)	Final CMP to CMEQ
December 11, 2025	Final 2025 CMP to Board (Close Public Comment Period)

# CMP-TAC COMMENTS RECEIVED

Date	Comment
10/16/2025	In the draft CMP report, the El Camino Real Corridor is shown as having a Level of Service (LOS) of A along the entire route; however, several intersections are reported to have LOS D, E, or F in AM/PM peak hours. How is that possible?
10/16/2025	Clarify the data methodology for INRIX. Specifically, is the reported speed data obtained from commercially available INRIX datasets?

# CMEQ COMMENTS RECEIVED

Date	Comment
10/27/2025	What other actions are taken to address interregional traffic congestion?
10/27/2025	How are other countywide efforts addressed in the CMP?
10/27/2025	Results show that general-purpose lane travel times have increased between 2023 and 2025 on US-101 southbound during the AM peak. Although US-101 was widened from four general-purpose lanes to include the express (toll) lane, congestion in the general-purpose lanes has not improved?

# BOARD COMMENTS RECEIVED

Date	Comment
11/13/2025	The CMP evaluates Caltrain travel times between Palo Alto and Bayshore, but several express services bypass Bayshore, and some commute-period routes demonstrate higher performance. How should these variations be incorporated into the analysis?
11/13/2025	Can we access Caltrain on-time performance data, particularly for segments parallel to US 101, to support more detailed CMP analysis?

# CALTRAIN TRAVEL TIME

Average Travel Time along US 101 Corridor (in minutes)

(Between San Francisco and Santa Clara County Lines)

Mode of Transportaton	AM - Morning Commute Peak Period (6 to 9 AM)		PM - Evening Commute Peak Period (3 to 6 PM)	
Caltrain Schedules (June 16, 2025)				
	Local	Express	Local	Express
Northbound: Redwood City to San Francisco	42	33	42	33
Southbound: San Francisco to Redwood City	42	33	42	33
Northbound: San Mateo to San Francisco	29	23	29	23
Southbound: San Francisco to San Mateo	28	23	28	23
