C.5.f. Municipal Separate Storm Sewer System (MS4) Map

**Kristin Kerr, P.E.
EOA, Inc.**

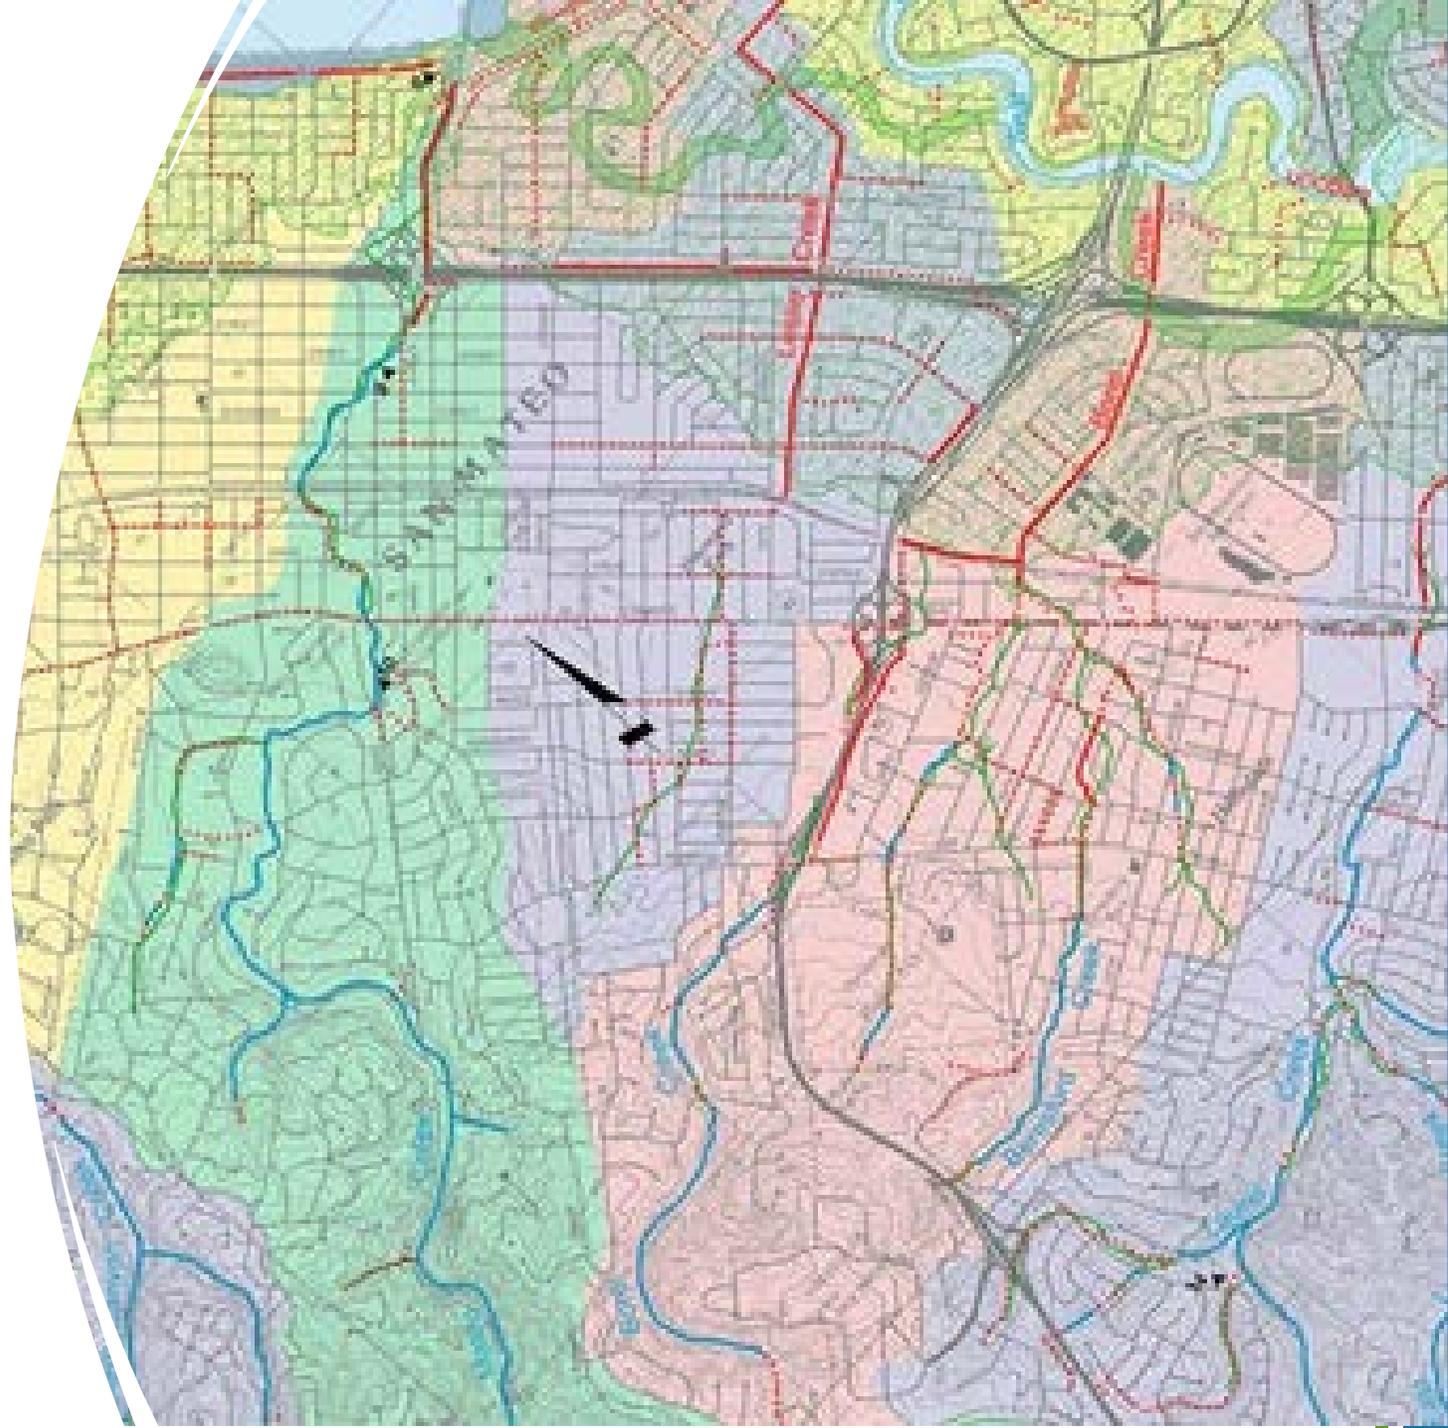

February 19, 2026

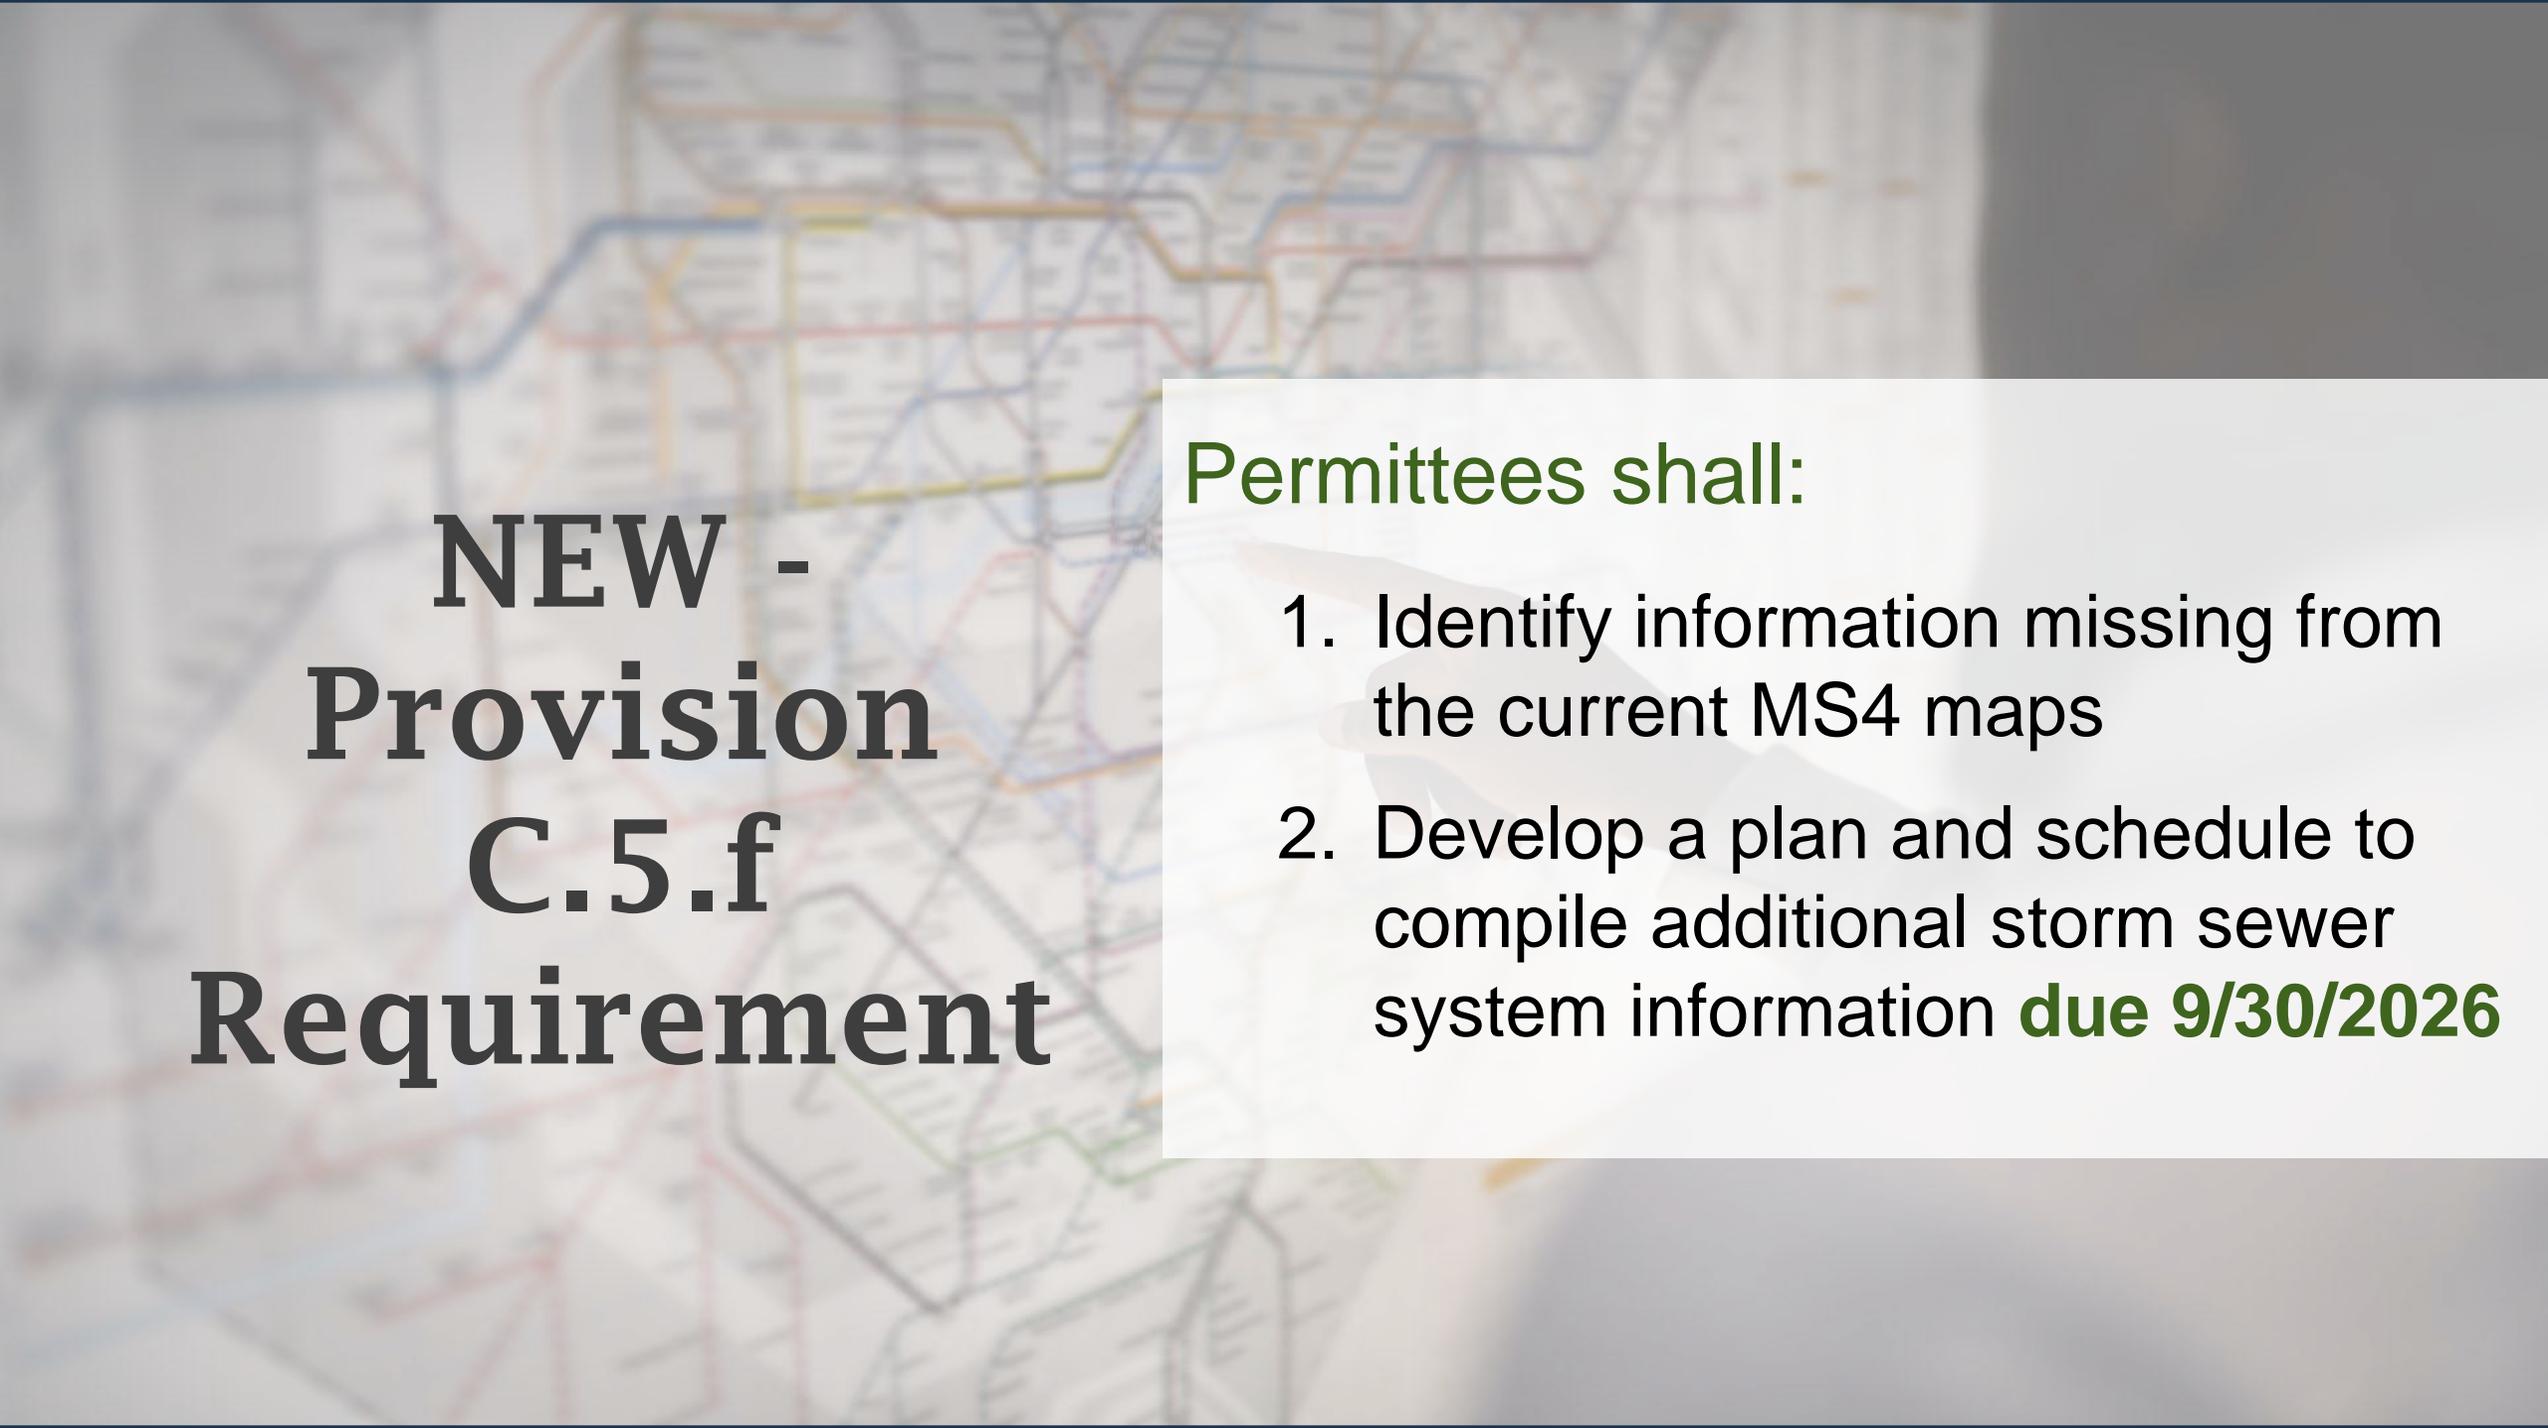

Provision C.5.f

Old Requirement:

- Each Permittee shall make the current map(s) of its MS4 available to the public

**NEW -
Provision
C.5.f
Requirement**

Permittees shall:

1. Identify information missing from the current MS4 maps
2. Develop a plan and schedule to compile additional storm sewer system information **due 9/30/2026**

Plan and Schedule

The plan and schedule must consider the potential to identify:

- component locations,
- size or specifications,
- materials of construction, and
- condition.

This information will be used to update Permittee maps and databases.

SMCWPPP Assistance

FY 24/25

Provide guidance for developing MS4 Mapping Plan and Schedule to CII

FY 25/26

Permittees develop Plans

FY 26/27

Identify if updates to SMCWPPP resources/tools are needed

MS4 Mapping Plan and Schedule Annotated Outline

Purpose:

- Provide guidance and structure for plan and schedule

Opportunities:

- Identify and prioritize data gaps of interest
- Position for MRP negotiations (e.g. why condition is not needed or at what level of detail we think meets the requirement intent)
